

Dear Dr. Guila Clara Kessous,

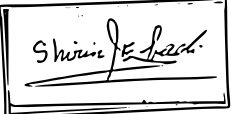

I saw your remarkable involvement for women's rights for many years helping women to be empowered with theatre technique as an artist and as a coach. You have helped thousand women from all around the world, women victims of sexual violence in Congo, women victims of exile like Rohingyas in Bangladesh but also executive women as CEOs or in the diplomatic fields to be more self-confident and to believe there is a place for women to take in the society.

Your initiative "The Sarah and Hajar Accords" is a fantastic way to help women role model to be heard in all the countries which signed the Abraham Accords. Uniting women diplomats from Barhain, Emirates, Morocco, Sudan and Israel will help for women's rights and feminist diplomacy in the Middle East region. I support strongly this symbolic action that would deserve Nobel Peace Prize and congratulate you for your strength and courage as a diplomatic entrepreneur.

Best wishes of success,

Dr Shirin Ebadi  
Human Rights Advocate and 2003 Nobel Laureate
